PROBLEM STATEMENT

We notice the employee performance data is tracked, omitted blank rows in exit date,etc,...

PRESENTATION

BUSINESS

WORK

PROJECT

PROJECT OVERVIEW

1. Conduct a comprehensive assessment of individual employee performance by using a variety of evaluation methods such as self-assessments, supervisor evaluations, peer reviews, and performance metrics.
2. Analyze the gathered data to identify trends, strengths, weaknesses, and areas for improvement, enabling informed decision-making to enhance overall employee performance within the organization.

END USERS

Presentations are communication tools that can be used as demonstrations, lectures, speeches, reports, and more. It is mostly presented before an audience. It serves a variety of purposes, making presentations powerful tools for convincing and teaching.

OUR SOLUTION AND PROPOSITION

I Develop solution and Proposition in Excel by creating visual representations,charts,tables to showcase the analysis of employee performance data effectively.

Populate an Excel spreadsheet with the employee performance data, including metrics such as productivity, skills assessment, behavior evaluations, and any other relevant performance indicators

DATASET DESCRIPTION

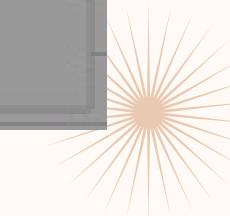

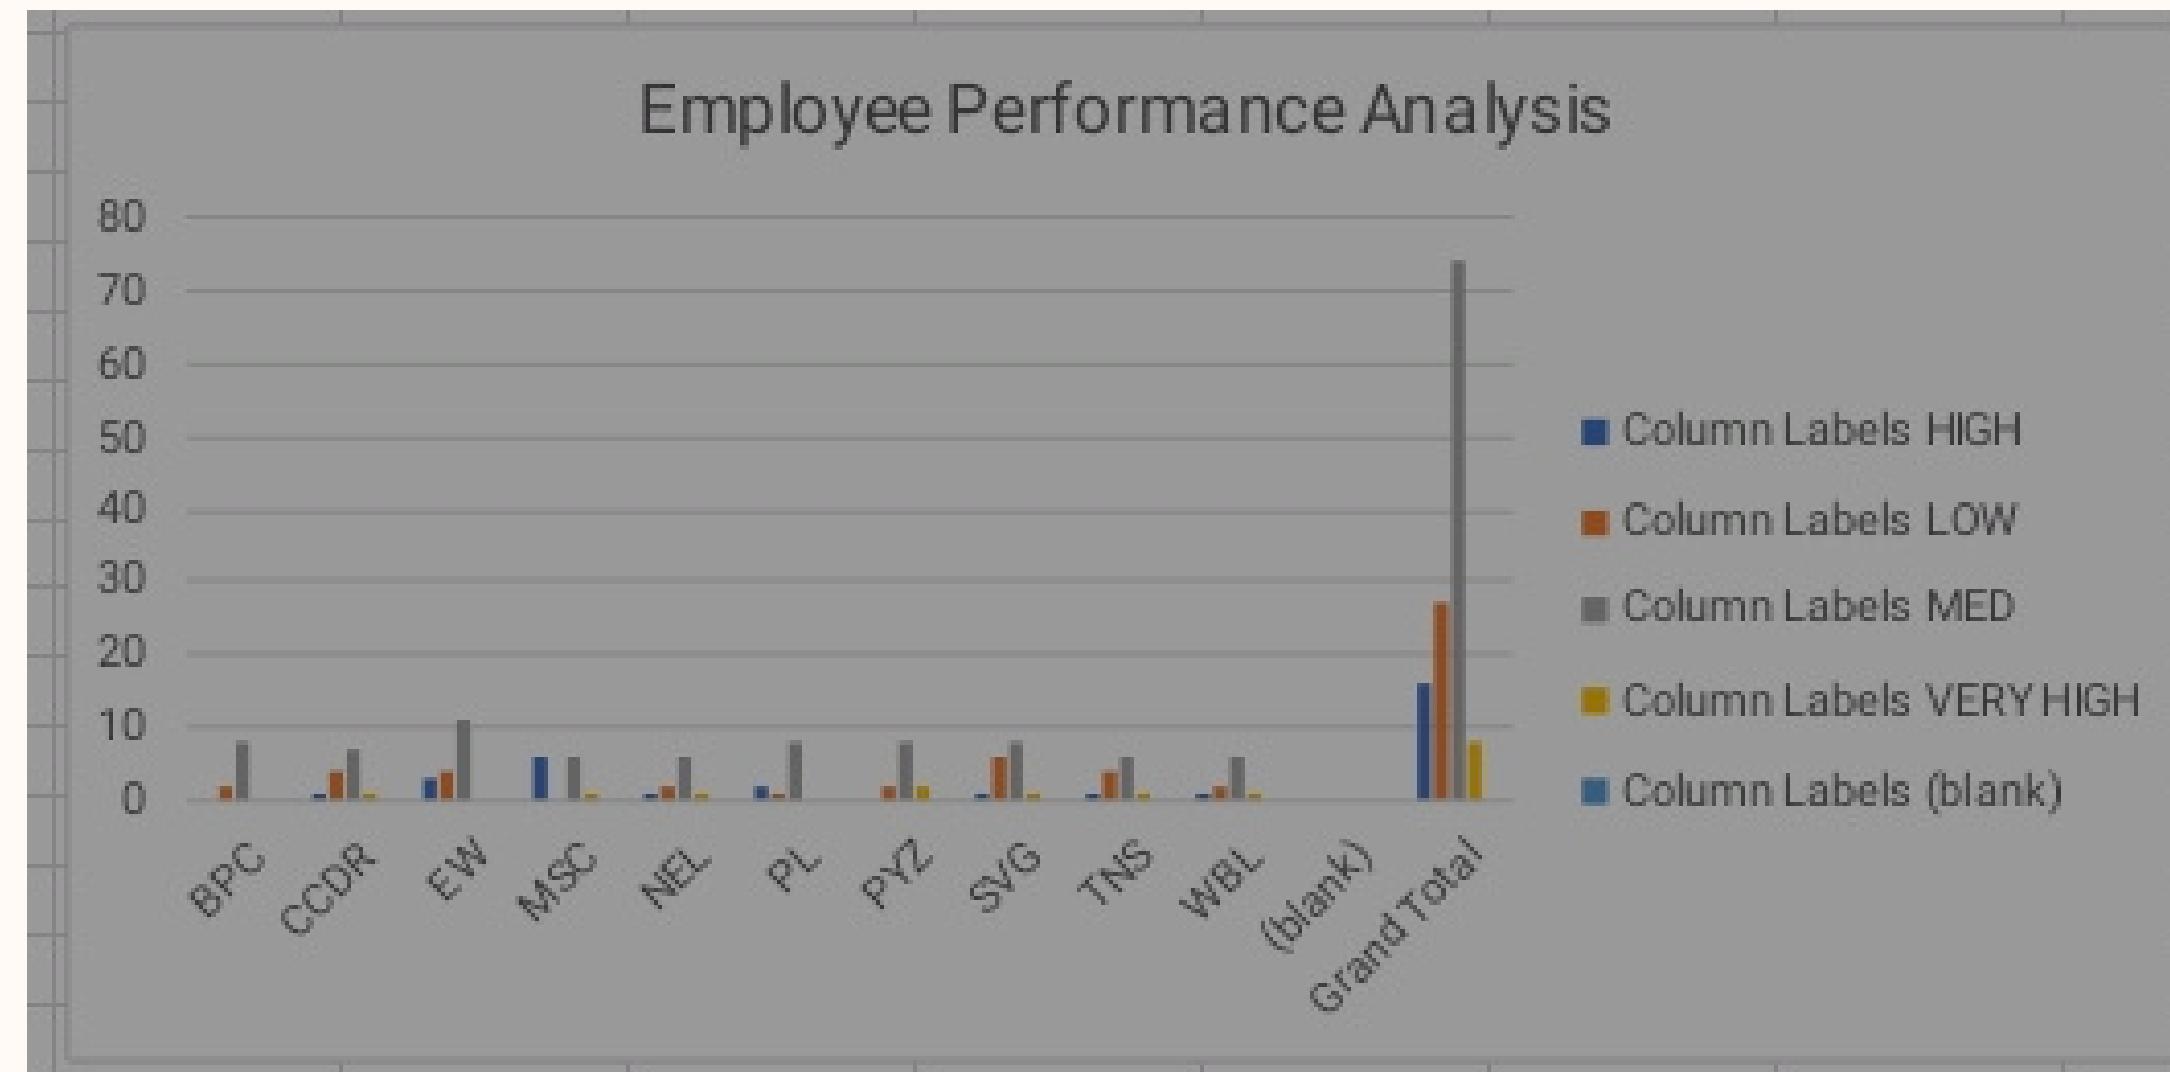

PROJECT

Excel features such as data validation, conditional formatting, and scenario analysis to create dynamic and interactive models for your PowerPoint presentation

MODELLING APPROACH

RESULT

CONCLUSION:

It's essential data to gather on individual performance metrics like productivity, quality of work and meeting deadlines.

THANK YOU
